A wonderful book to help find and maintain a “wonderful marriage”

***Wonderful Marriage* shares the no-nonsense, powerful and practical habits of
a happily married couple of 57 years**

DALLAS—Even though the U.S. divorce rate is at a thirty-year low, faith in the twenty-first century marriage hasn't been restored. As the latest celebrity break-up splashes across the news—just months after a ritzy million-dollar wedding—or as the latest government leader is caught in an extra-marital relationship, it's not hard to understand why more and more couples are opting to simply stay committed without tying the knot. It would seem in modern society that the “secret” to happy and long-lasting marriages eludes many, but Lilo and Gerard Leeds—with the help of bestselling author Terrence Real—have written a book that can help anyone find and keep a wonderful marriage.

In ***Wonderful Marriage: A Guide to Building a Great Relationship That Will Last a Lifetime*** (BenBella Books, April 2008), Lilo and Gerard Leeds share their tried and tested marital methods, acquired throughout their 57-year marriage. Their message is important but, even more, it is realistic.

They don't define a wonderful marriage in dusty, old-fashioned terms, but by whether or not both partners feel satisfied and content—in *all* areas.

Wonderful Marriage is organized into 10, easy-to-follow chapters that highlight the essential elements of a happy and lasting marriage. Topics covered in *Wonderful Marriage* include how to communicate lovingly, how to keep sex satisfying for both partners, how to raise children and how to deal with the “Big Six”—six non-negotiable and important issues including religion (to practice or not to), children (how many—if *any*—to have), money (how to save, how to spend) and even recreation (how to enjoy time together).

Bestselling author **Terrence Real**, author of *The New Rules of Marriage*, joins the Leeds and shares his expertise and learned insights into the real difference between couples who go the distance and couples who go their separate ways. Real has provided an engaging foreword and a comprehensive afterword that supports and builds on the Leeds' strong message.

Wonderful Marriage is more than just a trendy relationship book to pick up in order to try and salvage a crumbling union. This book is meant for *all* couples, from newly married to those celebrating their golden anniversary. From happy couples who want to make their good relationship great to frustrated couples who need a completely fresh perspective. The Leeds weren't satisfied with having a mediocre marriage, and after reading *Wonderful Marriage*, it's inspiring to learn that no couple should be.
